

# Coffee and Computers Newsletter

Volume 1, Number 3

December 18, 2001

**\*\*\* HAPPY HOLIDAYS \*\*\***

## **THANKS**

Thank you all for visiting 'Coffee and Computers' this last year.

What started as a small group that met at the Tustin Family and Youth Center a year or so ago has grown into a really fun group who visit with one another each Friday to discuss their computer experiences.

I believe 'Coffee and Computers' serves a unique purpose. It's a place for those that have not even purchased their first computer all the way to those with considerable computer experience. All come with great questions and seem to be able to get the answers they seek.

I've enjoyed my task as Ring Master, trying to maintain order during the lively discussions. Occasionally I try to answer a question and from time to time have been known to tell people "how to build the watch." I find this really keeps me on my toes!

So, this newsletter is a Thank You letter, a Happy Holiday wish and an

invitation to everyone to keep visiting 'Coffee and Computers' Friday mornings at 9 a.m. at the Tustin Area Senior Center.

## **NO NEW NEWS ON CLASSROOM III**

Gary Magill's report on the conversion of classroom III into a multipurpose-computer classroom has been submitted. So far I haven't heard anything more about the City's plans for this project. I will keep you advised if I hear anything.

## **ANTI-VIRUS HOAX**

An email has been circulating warning about the SULFNBX virus appearing as a Windows file. It was a HOAX but had many people wondering. Just another example of the things that happen on the Internet.

**VERY HAPPY HOLIDAYS TO EVERYONE AND LOOK FORWARD TO SEEING YOU ALL AT 'COFFEE AND COMPUTERS.'**
